## FOR IMMEDIATE RELEASE

### WORK TO INSTALL NEW SIDEWALK ON BROADWAY IN EUREKA

**Eureka** – Caltrans announced today that a project to install a new sidewalk and pedestrian cable railing will begin Tuesday, May 29, on Route 101/Broadway at Vigo Street in Eureka. Daytime work hours for Tuesday, May 29 through Friday, June 1 are 7 a.m. to 5 p.m. All work will be conducted off the roadway and a pedestrian detour will be in place.

Nighttime work hours for Monday, June 4 through Friday, June 8 will be from 7 p.m. to 7 a.m., Monday evening through Friday morning. During these nighttime work hours, southbound traffic will be restricted to one lane and motorists should anticipate minor traffic slowdowns.

This project will help improve pedestrian access and mobility on Route 101/Broadway since the location is currently without a sidewalk. All work is weather dependent. For more information, please contact Caltrans Resident Engineer Heidi Quintrell at 707-825-4747.
